

DebLink utility console

U can call it as a Payload laucher SSH panel or a FTP Server(future update) build for Homebrew devs & Server user

Runs on Android SmartPhone and Tablet

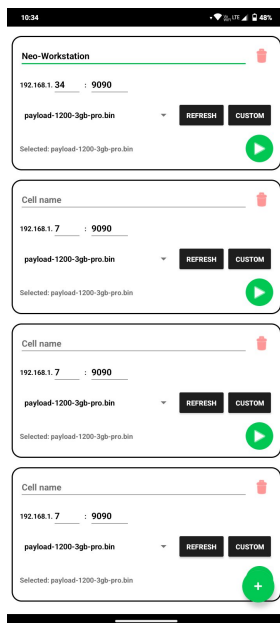

Features:

Cell based Payload loader

u can add Cell and u can customize your own

To add payload u need a another file manager that has the ability to access the Android Root folder in the storage/emulated/Android/data/ after u install my app it will created a dir inside data called com.payloadlauncher then go the /files/payloads then add your payload

More explain in video:https://youtu.be/52uWYOA_UcA?si=NiticZOj2L-poEsO

And I also added SSH Support Full SSH connection on your hand

Connect multiple SSH Connection at same time

```
